Flodder Daily Jackpot game features:

This slot game has lots of features that will keep you guessing. Lots of these include Wild symbols:

Grandpa Flodder is active in the base game and the bonus rounds. He will roll across the screen, dropping up to twelve Wilds as he goes! Wilds all help you to win, as they can substitute for other symbols across winning paylines. The other Wilds are active during the Free Spins Bonus Round, such as the Sjakie Super Wilds, the Ma Wilds, and the Johnnie Wilds.

When the Free Spins round is activated, you will first be taken to the Free Spins Picker. There will be a lineup of bottles to choose from, which each contain a different modifier for your Free Spins round. These could be extra spins, Win Multipliers, or the special Wilds mentioned above.
